NSF100 MIKUNI TRM28/32 CARBURETOR KIT

- Provides great intake efficiency in high speed range by seal ring and thinned throttle valve.
 - Responds to rapid acceleration smoothly by hyper-nozzle and accelerator pump. Chosen plunger accelerator pump and discharges suitable fuel amount for throttle on-off speed.
 - Improves operability by using ball bearing to move throttle valve smoothly
 - Compact size and lightweight
 - Easy to change setting parts
 - Easy engine starting by separate starter function even in cold weather and can warm up steadily after fast idling.
- ※ HOSE JOINT 6mm-8mm and FUEL HOSE 8mm is required to install.
