FLAT BAR LOCK TDX-01

Flat bar joint mechanism can be fold compactly and stored in helmet compartment of scooter. Also best designed for use of gatepost lock, secured high resistance to attacks by installing high strength special alloy and rivet mechanism in arm and shaft section. Moreover, installed one-touch lock mechanism, just inserting lock shaft to key cylinder allows lock, a high practical model superior to operation, security and portability.

THE FLAT BAR ALLOWS COMPACT FOLDING!
