K・CON Pro

NEATLY BUNDLE HARNESSES !

Cable ties made of stretchy silicone. Enables to neatly bundle the harness and cables to the handle or frames etc. With high-elasticity silicone, realizes excellent durability and weather resistance enough to resist snapping. Reusable because of hook-fastener design. Available in 5 types to suit various usages !

DAX125 Handle :φ22.2 Switch harness

40×15mm Usage Example
