

# YAMAHA XSR125 sports heritage

## SHORT HANDLE FULL SET

## NARROW & UPRIGHT ACTIVE STYLE HANDLE BAR!!

### Description

Compared to the genuine handlebars (width: approx. 750mm), the width has been reduced by approx. 50mm and the pullback has also been changed, allowing the upper body to be raised and the field of vision to be expanded, making it suitable for a wide range of riding positions from commuting to touring. Equipped with a handlebar switch with a hazard function that is useful in emergencies.

### MULTIPURPOSE BAR (SWING CONSTRUCTION)

Variable with 5 steps (35°incr.)

### RIDE POSITION COMPARISON

■: HANDLE (STD) ■: HANDLE (HURRICANE)

RIDER HEIGHT : 170cm

The more upright position allows for a more relaxed and free posture, with a wider field of vision and a wider range of riding styles.
