The Better Brakes Leafs
E·HF·CT·HS·LS·MS·SI·RQ

SBS is a green pad that is more environmentally friendly and has improved performance.

Cleans brake dust generated during braking.
Gradually transitioning to more environmentally friendly brake pads.

**Always update the compatibility
information for new products and new
vehicles!**

This is a search engine that makes it easy to find the brake pads that are compatible with your car, by searching by manufacturer, model, name word, pad number and etc.
